AMERICAN AIRLINES, Inc.

W. S. Chas. Inc. in American Airlines

W. S. Chas. Inc. in American Airlines

Postwar Plan of American Airlines

TODAY American Airlines operates 8,365 miles of airways throughout the United States and into Canada and Mexico.

We have filed applications for authority to operate 5,322 additional miles within the U. S. and 5,419 miles to Europe.

The air-map above shows the cities which American Airlines now serves and seeks to serve. This is our present plan, but we believe that the public interest will require American to serve more cities.

This is our contribution to the network of air-service that is indispensable to the future growth, prosperity and protection of our nation.

Every city in our land must do business with many other cities all over our three million square miles. That calls for transportation of people, mail, merchandise

and materials of every kind. The swifter and more flexible the transportation facilities, the closer together we become, and the more effectively we can work together.

In this war, our Airlines, co-operating with the Army Air Transport Command and the Naval Air Transport Service, are circling the globe with daily flight over arctic, jungle, ocean and ice deserts. What they are doing is the blueprint for your new world. It stems from the fact that air is universal, available to everyone, everywhere, alike, and it is our purpose to meet our air demand.

There is no pessimism among those who are thinking in terms of air transportation for the future. They see more new prosperity and more achievements of all kinds than were ever possible before.

This ink proves pen failures can be avoided!

Saving in Parker Quink prevents metal corrosion, rubber deterioration . . . cleans your pen as it writes!

As ink that writes soft is not enough. It may suddenly be writing away at the vital metal and rubber parts in your pen.

When you need in the postwar world Quink—Parker Quink. Every drop of it contains solva, an exclusive Parker ingredient. Parker Quink with solva penetrates the pores of rubber and seals off deterioration. It shields metal from corrosion. It cleans pens as they write, flushing away the sediment and gum which have been left by ordinary inks.

Brilliant, non-drying, fast drying. Quink with solva costs no more than any other high-grade ink. Its solva's ink elements with their pen of years. Give us the postwar ink it deserves. Keep it and of the repair display shop it with Parker Quink, today! Ideal for mail pens too. The Parker Pen Company, Jenneville, Wisconsin, and Toronto, Canada.

"AMERICAN BLANK," the all-purpose blank ink. Write blank slips blank. And for a final photographic finish. Quink comes in 7 permanent colors: American Black, Blue-Black, Emerald Blue, Green, Purple, Brown, Red. It is available in 10, 20, 30, 40, 50, 60, 70, 80, 90, 100, 120, 150, 180, 200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1100, 1200, 1300, 1400, 1500, 1600, Painting the Town with Esquire

NEW ORLEANS In wartime it is hospitable self-with long-expect, Overcrowded, Understaffed, Disputed tourists and drinker conversations are not out for the duration; it's veritable "long and nervousness" even ground, the old French Quarter restaurants as ever last morning with dollars in pockets looking for a place to eat that isn't already full to the dogs, with 10 hungry people working on the sidewalk. When they finally contact New Orleans cooks, the snipers or hosts spent on the beef are forgiven in quiet smiles.

A **NOTEWORTHY** world renowned in the lineage of Doctor Rockefeller, of whom you're the beg and the other classes, present an as-needed solution here in the 1980s year, located by the very thin 415 growth of the founder. the **attack!**

If there is glory at all in war, *all* of it goes without question to the men who do the fighting. We who are on the production front, turn out the weapons the Victory has no ple satisfaction in the knowledge that our product delivers when needed.

Our fighting men feel stronger and safer because of the Hamlin-Tolson... the "house telephone" of the infantry company. With it, our it is known where the enemy is and what he's doing. This knowledge is what the margin of Victory—and Victory is our goal!

The *Blonde-Talkie* is a heavy powered radio receiver and transmitter no larger than a leather box. The operator talks, giving information, orders, receiving instructions. Officers and men on the infantry call it the "lightning" radio set in the army. The "*Blonde-Talkie*" was conceived and developed exclusively by Motorola Electronics Engineers. It is a Motorola habit to be first.

As many as 100,000 immigrants are expected to enter the United States this year, according to a report by the Immigration and Naturalization Service. The report, which is based on a survey of the country's 100 largest cities, shows that the number of immigrants entering the country has increased steadily since 1945 and that the number of immigrants entering the country has increased steadily since 1945.

It is noted that the increased immigration is expected to be a result of the war, which has caused a large number of people to leave their homes in Europe, Asia, and Latin America. The report also notes that the number of immigrants entering the country has increased steadily since 1945.

thatched for summer

You can go voluntarily out in the sun-drenched sun, along with sand-dogs and the imperishable English, in any one of this trio of cool summer staves. The familiar pork pie hat at the top of the page is a happy revival of a fashion popular a few years ago. The broad-brimmed, together soft-soled panache and Gaby's man from the West Indies. American designers have gone down to the Caribbean to dig and come back with a reasonable facsimile of the best fashioned by our vigorous Good English, adding a touch of their own—the inevitable puggie. Below and to you is the bit of the south, a much Panama in natural order. Such as the primitive, delicate, Panama hats were so often by way as to be virtually weightless. Thank Heaven, we're so used now. Dandy the prebent crown, the individual, intricate puggie. You launch across in the wide hemisphere per Panama with narrow striped band

At ease

When you take time out for a bit of well-earned relaxation, why not take it handsomely?

The sports coat slouched is thoroughly at home in the best-dressed spectator sports crowds. Its rich velvet-lined elbows with the smartest country club denizens . . . and not without, no doubt, a touch of superiority complex.

Knowing full well that a sports coat is something you don't buy very often, we've given it less than most because it's dandy. The fabric is luxuriously soft. The tricky blue checks are carefully tailored, smoothly lining sophisticated.

The combination will put you at your well-oiled ease, both physically and mentally, no matter where your customer interests lead you this summer.

Fugitive from a cab stand

He has the air of a wolf far it that the fellow with the confident stride and the Duke Carnegie smile is an executive, not a hoodlum. Quite possibly it's a well-known about some of the most famous men in the world—being close to justice than most of us. One success will need all that charm and self-confidence when he can get with the law. In fact, a man who enjoys making public enemies of great law officers from the one side and who forget to carry change and hasn't acquired the subtle art of changing. He runs, as any man, in as fast as they come, it's darkish ten squared worried. His shirt, tie and white, in of pattern, deep smoky material. His trousers dark Panama but has a pocket square and fairly wide legs. His shoes are dark brown polished to straight up to a list. The red black and white find not to understand a welcome spot of color.

(The picture is not a drawing and is a photograph of a man in a light-colored suit, a patterned tie, and a fedora hat, walking down a city street.)

MOVIES for pleasant hours... LIGHT WHISKEY for pleasant taste

Illustration by J. H. Fisher

Life goes much to that decade of the nineties when moving pictures and light-bodied whiskey first captured public imagination and taste. Since J. C. Kinsey laid the courage to introduce his amber, lighter whiskey, the nation's thirst and demands have been the pleasant. Most have won the high regard of all who appreciate good whiskey. And Mr. Kinsey today still personally supervises the Markey Kinsey Blending Corporation, Lenoir, Pa.

MUMS Helps a Man Make the Grade

YOU can't sell yourself as often as you can sell your product—and that means confidence. Confidence made up of small things, like success upon success upon success. Many of today's greatest salesmen know this is true. And as a rule only salesmen of great personality—they do as a rule—Mums to great success. Salesmen who chief Mums is selling, that only 10 seconds, passes of the time in a sale, you'll make them, believe me. Now using them after every sale.

Like the Alhambra,
these wines date back
to the 13th Century

Old as the moated Alhambra is the tradition of wine-making in the family of the Manquez del Puerto. Today, as for seven long centuries, Merito wines are recognized as the flower of the vineyard's art. More than 40 gold medals from International Expositions furnish striking proof of their superb qualities. Favored abroad by princes and poets, they are now equally respected here in America by those who love only fine wines. Ask for Merito Sherry, from Spain, or Merito Port, from Portugal, next time you buy wine.

Each Merito label carries helpful advice on wine, color and use. Look for the Merito label when you buy wine.

ten years left alone, there are only 200 farms. The same land would stand rising like bars the Alaskan land market has helped to find the solution.

Alaska has a history of American occupancy covering nearly three generations. Residents developing a large land and some have defied the climate as vigorously as California and garden a tropical abundance to produce "milk"—that is, to the State—to avoid the future. However, the bulk of this population is along the southern coast where the climate is greatly modified by the (Gulf Stream current).

Island from the coastal edge of the Arctic the winter is long and cold. In much of the interior the winter is particularly severe, and for six to eight months of the year temperatures may never rise above freezing. During the first winter of Alaska Highway operation the thermometer at Fairbanks dropped to 30 degrees below zero. At Fort Yukon the average 24-hour temperature in 1937 was about 10 below. Fortunately, in the winter, road travel is not necessary. The driving season in such a winter has been greatly well standardized. On a few roads of long road travel, a heavy road is not a smaller or more or both and even a few points of industrial interest are the foundation. Over the years a limited supply of it may be obtained with a report from, or the industrial interest must take steps over the road and has a convenient, long winter road in its mind. Food and water are usually transported with well of equipment for, on which we will not return. Besides the food, the land is now being by a kind of log or a log with our dogs. Further interest in the possible land service and they are made steps to be satisfied with heavy road travel.

The first on the main problem is the fact. Presently already not a comparison of the 1940s are the most serious change. Through several decades there is a two types of road work, covered by so-called German roads of heavy gravel and gravel and gravel on roads at so above the tracks. Over the last few years we have made steps of heavy gravel and gravel and gravel on roads at so above the tracks. Over the last few years we have made steps of heavy gravel and gravel and gravel on roads at so above the tracks.

SLEEP? WHAT'S THAT? "Two hours sleep in 72"—"Thirty-six hours of surgery and treatment under fire"...the records of the more than 50,000 medical men in the Armed Services speak for themselves: They've got what it takes!

He wears the same uniform...He shares the same risks as the man with the gun.

Right this very minute you might find him in a foxhole under fire at the side of a fallen doughboy...

Jumping with the paratroopers...riding with a bomber crew through enemy fighters and flak...

Or sweating it out in a dressing station in a steaming jungle...

Yes, the medical man in the service today is a fighting man through and through, except he fights without a gun.

They call him "Doc." But he's more than physician and surgeon: he's a trusted friend to every fighting man.

And doctor that he is...doctor of medicine and morale...he well knows the comfort and cheer there is in a few moments' relaxation with a good cigarette...like Camel. For Camels, with the fresh, full flavor of costlier tobaccos expertly blended and the soothing mildness of slow burning, are the favorite cigarette with men in *all* the services.*
